Blank graph: count or rate, 30 sessions

The standard ABA line graph for counts or rates. You write the scale.

1. Pick a scale that fits your biggest number, start it at zero, and write it up the side.
2. Rate, not count, if sessions differ in length. Label which one you used.
3. One dot per session; dashed phase lines; never connect across them.
4. Read it: level, trend and bounce.

Learner (initials or a code) _____ Behavior _____ Count or rate (circle) _____
