Skill tracker: baseline to maintenance

Follow each target from its baseline to mastery, then check that it traveled and lasted.

1. One target per row. Write the baseline date and result before teaching starts.
2. Write the date teaching started and the date it met the mastery rule.
3. Probe it with new people, places and materials, and write what happened.
4. Check it again 2 and 4 weeks after mastery. Gone? Reteach it.
