Treatment integrity checklist

Check whether a procedure is being run the way the written plan says, step by step.

1. Copy the steps of the procedure from the written plan, one per row.
2. Watch a session. Mark Y if the step was done as written, N if not, NA if it didn't come up.
3. Score = Y ÷ (Y + N) × 100 for each observation.
4. Below your goal? Retrain the missed steps in four steps: tell, show, practice, feedback.
